Frequency of the Board Meeting and Academic Advisory Body :

Academic Advisory Body meets at least once in an Academic Year. The Governing Body meets at least twice in an Academic Year.

Nature and Extent of involvement of Faculty and students in Academic Affairs & Improvements:

The Institution's System of Administration is properly structured with clearly defined Roles of Faculty, Administration, Staff, Students and Governing Body, involved in the Policy Development and Decision making to realize its fully stated Vision and Mission in a climate of mutual support to benefit the Institution, Faculty and the Students. The Students and the Faculty periodically meet to assess the Goals set and the achievements under the Guidance of the Director Students Affairs, Director Students Progression and schedule the Programs and Practices along with the Resources and Infrastructural needs for going forward which will then be placed before the Principal and the Chairperson Planning and Development for approval. The institute encourages participation of student representatives in various academic committees, this enables them in acquiring a better academic environment. Student opinions and suggestions are considered to take measures in view of students' perception.

Mechanism / Norms and Procedure for democratic/ good Governance

Principal, who is the Academic Head of the Institution, is aided by Deans, Heads of the Departments, Finance Officer, Section Heads, and Chairpersons of other Institute- level Committees. The various Committees that direct the day-to-day functioning of the Institute include: Governing Council; Academic Council and Boards of Studies; Finance Committee; Finance, Planning and Development Committee. Other Sections and bodies that take part in Governance include: Internal Quality Assurance Cell (IQAC); Planning, Approvals, Accreditation and Certification (PAAC) Cell; Academics and Admissions (AA); Examinations and Evaluation (EE); Research and Consultancy Cell (RCC); and Mentoring, Training and Placement (MTP) Cell.

The Institute's Policies, Strategy, Resources, as well as Operations and Quality Assurance cater to the different facets of the Institute, viz. Academics, Research, Innovation and Entrepreneurship, and Social Responsibility with Global Vision. Shantha Educational Society, as well as the Principal who ensures seamless management systematically, encourages participative leadership by involving various stakeholders at various appropriate levels of decision-making. Recurring and intermittent requirements of Departments and Sections are identified by the Heads of the respective Departments and Sections, which are presented to the Finance Committee for evaluation of financial aspects and to the concerned Deans and the Principal for a consolidated need assessment. The identified requirements are presented to the Governing Council by the Principal and approvals necessitate interactions with the concerned stakeholders and faculty members. Faculty members participate, through

corresponding Functional Committees, in finalizing curriculum design, teaching methodology of common courses, examination reforms, maintenance of academic standards, and student welfare. Such participation brings transparency to the governance and inherently encourages team-work, while ensuring practicable decision-making. Students and alumni are also involved in certain Committees including the IQAC so that their views are also considered in governance. Thus, all management members of the Institute are involved at various levels in assessing actual needs, budgetary requirements, academic standards and policy-making, progression in innovation and research. The Principal subsequently drives the resulting policy, strategy, resource allocation, and operations through the Governing Council and the Shantha Educational Society. Societal impact and responsibility are assigned prime importance such that the Institute contributes to sustainable socioeconomic development through globally-competitive competence

xiv) Innovation Cell

The Institute Innovation Cell and Council facilitate the conduction and coordination of innovation activities at the Institute. These activities include support, mentoring, guidance, and facilitation to students approaching the Institute with their innovative ideas, competitions and hackathons conducted on campus and/or participated by the Institute's students, as well as Institute-level grand events such as the Intramural Innovation Competition, Convergence (Annual Technical Symposium), and the Ecficio (Annual Entrepreneurship Fest). The Institute also has active external collaborations with other Innovation centres such as the J-Hub (JNTUH's Innovation Hub), T-Hub (state-level incubation hub that is purported to be the nation's largest), TiE Hyderabad (the Hyderabad chapter of the world's largest entrepreneur network 'The IndUS Entrepreneurs'), and is represented at

the Telangana Incubators and Enablers Network through the in-house Incubator, VJ Foundation for Entrepreneurial Excellence ("VJ Hub") by the Convener of the IIC. These proactive collaboration efforts by the Institute help the IIC bring in the true spirit of nationwide IIC network into practicable action at the Institute and extend the benefits of the same to the stakeholders.

xvi) **Social Media Cell**

In today's society, social media is an integral part of the student's life. Everyday bulk of news is being disseminated over the internet. The students are the foregrounds to sculpt the future of the social networking sites, as they form the majority of users. According to the latest reports, everyday students are spending approximately 10 hours on the internet. Overall, social media is a powerful yet influential tool. Social Media Cell (SMC) at SPEC monitors the use of social platforms at the college campus.

Extra-Curricular Activities

Soft Skill Development Facilities

To empower students to make life long responsible and meaningful choices in a global and dynamic world, the College has an exclusive Placement and Training Centre to facilitate on campus Placement opportunities to the students. The Centre has a professor in-charge of the activities. The Centre provides pre-placement training in soft skills to all pre-final year students to enable them to acquaint to the current corporate requirements. The centre facilitates students to face interviews & get jobs of their choice. More than 100 top and well-established companies across the country/abroad from all sectors visit the campus for recruitment. Every year more than 80% of students from all the programs are being placed.

The following are some of the activities which ensure progression to employment:

The Placement Centre provides a seven-day training programme in soft skills (like Personality Development, CV Writing, Communication Skills, Aptitude tests, Interview

Technique etc.) to all students during their pre-final year. The students are given a choice of opting for two job opportunities (choice being one core & one IT Company during the recruitments). Guest lectures and special invitee lecture series organized for all the branches of students from industry experts through the Placement Cent Internship opportunities have been provided for UG & PG students by various companies like **AMAZON, TCS, JP MORGAN, ACCENTURE**. Most of the top companies across the nation, visit us for Campus Recruitment.

xx) **Teaching Learning Process** : ICT tools and its usage in college

The Institute is practicing different student centric learning methods to enhance their learning ability, these include:

seminars, mini projects, paper presentations, poster presentations, etc.

Experiential learning:

Students are allowed to conduct experiments independently in practical classes. Mini projects at third year level and major projects at final year level will help in imparting the required technical skills to the students. They are encouraged to do the internships in industries & industrial visits as a part of industry institute interaction. Mini project exhibitions are being organized to showcase their skills.

Participative learning:

Students are motivated to participate in Quiz Competitions, Paper Presentation, Technical Seminars and Online Certification Courses to get the participative learning environment. Student development programs like Hackathon 23, SPECFIESTA23 are conducted in college level and 15 workshops are conducted at department level to enhance the learning capabilities of the students. Every classroom is provided with projector and internet facilities for effective playing of NPTEL and teaching Videos, to enhance their knowledge.

Students are involved in assisting research work with Quality Assurance by doing projects on societal, Industrial and other requirements. Besides Research, other aspects like Innovation, Incubation, Industry Interaction, Development, Entrepreneurship, Education and Social Responsibility are encouraged, thereby providing holistic education to students.

The role of Information and communication technologies (ICT) in teaching learning process ensures that students play an active role in the learning process. Faculty combines technology with traditional mode of instruction to engage students in long term learning. But, in year 2020 due to pandemic, education has changed dramatically, with the distinctive rise of e-learning, whereby teaching is undertaken remotely and on digital platforms also.

Teachers use ICT enabled tools like PPT, Animations, and utilize online resources like Videos like NPTEL and Other, Virtual Labs, for teaching.

College library is equipped with video lectures of NPTEL, Online journals and eBooks. Library is available from 8AM to 6PM for students and staff.

College has Learning Management System Namely BEE's ERP and CampX. In this faculty upload the teaching materials, Assignments and other teaching materials, which are accessible to students.

Each class room is equipped with projectors where faculties can use ICT tools for effective teaching.

Faculty uses ICT tools for conduction of quizzes and taking feedback from students.

Industry Connect- Along with classrooms, Seminar halls & laboratories are digitally equipped where guest lectures, expert talks and various hands-on sessions in IOT, MATLAB and other Programming languages are regularly organized for students.

Video lecture- Recording of video lectures are made faculty are available to students for lifelong learning and future referencing.

Concept of learning through MOOCs is included in syllabus, For Value added Courses students can to do course through Coursera and open elective courses can be done by NPTEL.
